Printer description files for Aldus, Adobe, and other apps

There are 3.0 and 4.x versions of the PPD files; use the version required by your application. Each version is located in a separate folder. However, if you need to check the file's version number (3.0 or 4.x), open the file in a text editor and check the ***FormatVersion** line near the beginning of the file.

Note   *Most applications that use 3.0 PPD files also use PDX files.*

Decompress *Phaser 340 Apps.sea* archive file on the Macintosh Driver and Printer Utilities diskette. Then continue with the steps listed below for the printer and application version you are using.

■   The *TK340171.PPD* file and the *TK340171.PDX* file are for use with the standard version of the printer (17 fonts).

■   The *TK340691.PPD* file and the *TK340691.PDX* file are for use with the Plus configuration of the printer (69 fonts).

Note   *Also included are files for use with a Japanese Kanji language version of the printer: TKP340J1.PPD and TKP340J1.PDX.*

Aldus PageMaker 4.2 and 4.2A
Aldus FreeHand 3.0 and 3.1
Canvas 3.0

The PPD and PDX files in the *3.0 PPDs Folder* are PostScript Printer Description files for use with Aldus, Adobe, and other applications. Refer to your application's documentation to see if this is the version PPD you should use.

1.   Locate the *3.0 PPDs Folder* in the folder on your hard disk containing decompressed files.

2. Place the 3.0 PPD file and the PDX file with your other PPD files on your hard disk according to application needs.

   Typically, PPD files are located in the *PPDs* folder, in the *Aldus* folder, inside the *System Folder*. Refer to your application's documentation for details. This file is used automatically by applications that require the information.

■ If you are using Canvas 3.0, drag the 3.0 PPD file into the *PPDs* folder on your computer's hard disk. The *PPDs* folder may be found in the *Canvas* folder if you don't have any Aldus applications.

Aldus PageMaker 5.0 and Aldus FreeHand 4.0

The PPD file in the *4.x PPDs Folder* is a PostScript Printer Description file for use with Aldus, Adobe, and other applications. Refer to your application's documentation to see if this is the version PPD you should use.

The 4.x PPD files may not work with applications that require a 3.0 PPD file. Refer to your application's documentation to see which version of the PPD file you should use. *Do not use a 4.x PPD file unless your application requires it.*

1. Locate the *4.x PPDs Folder* in the folder on your hard disk containing decompressed files.

2. Place a 4.x PPD file with your other PPD files on your computer's hard disk according to application needs.

   Typically, PPD files are located in the *Printer Descriptions* folder, in the *Extensions* folder, inside the *System Folder*. Refer to the application's documentation for details.

■ If you are using the LaserWriter 8.x printer driver, place a 4.x PPD file in the *Printer Descriptions* folder, in the *Extensions* folder, inside the *System Folder*.
