

Installing Adobe Acrobat Reader

- 1 Insert the printer's CD-ROM into your CD-ROM drive.
- 2 Do one of the following depending on your system:
 - [Windows 95](#)
 - [Windows 3.1](#)

Windows 95:

- a** Click the **Start** icon in the taskbar on your screen. In the menu that appears, click **Run**.
- b** In the **Run** window, type in the drive the CD-ROM is in, followed by the `\TOOLS` directory and the file name *ACROREAD.EXE* and click **OK**. For example:

C:\TOOLS\ACROREAD

- c** Follow the on-screen instructions to install Acrobat Reader.

Windows 3.1:

- a** In the **Program Manager** in Windows 3.1, select **Run** from the **File** menu.
- b** At the **Command Line**, type in the drive the CD-ROM is in, followed by the *\TOOLS* directory and the file name *ACROREAD.EXE*, and click **OK**.
For example:

C:\TOOLS\ACROREAD

- c** Follow the on-screen instructions to install Acrobat Reader.
