Problems with image size and position

Off-set images

Check your application for correct image sizing.

Cut-off images

- Check your application for image sizing.

- Make sure that you are using a Phaser 540 driver and have selected the correct page size. If you select the incorrect page size, the image may be cut off.

- Make sure that the correct size media is in the media tray.

Image shifts or margins are incorrect (Macintosh)

- Make sure that you have installed the Phaser 540 printer driver onto your Macintosh so that you can select the correct page sizes from the driver.
