

Installed items

The Phaser 550 diskettes and CD-ROM include an installer application that automatically installs the following printer software on your computer's hard disk.

You can also copy this software from the CD-ROM or diskette to your hard disk without using the installer.

- *TKPH5501.PDF* (PostScript printer description file for use with QuarkXPress)
- *TK550171.PPD* (PostScript printer description file for use with the standard 17-font version of the printer and a PPD-driven printer driver such as the Adobe PS3)
- *TK550391.PPD* (PostScript printer description file for use with the printer's extended features option with 39 fonts and a PPD-driven printer driver such as the Adobe PS3)
- *SAMPLERS* (directory containing color sampler charts and a fonts sampler)
- *PHSR550* (directory containing printer utility files)
